

DIRECT CABINET SUPPLY PAINT WAIVER FORM:

We want to ensure your complete satisfaction with your new cabinetry. Therefore, we ask that you understand the inherent characteristics of the product(s) you have selected. The finish includes 2 coats of paint, plus 2 clear top coats. Painted finishes may show slight scratches and wear and tear in areas of extreme usage. This usage may appear anywhere on the door, but it is most typically seen near the decorative hardware. In addition, as the wood naturally expands and contracts with varying weather conditions, slight joint separations may occur. These separations may become visible as small cracks in the painted finish. This is a natural occurrence and does not affect the integrity of the joint. The separation occurs most often in climates with high humidity. To minimize cracks, keep your house at a constant humidity level. We recommend maintaining a controlled environment of 70-75 degrees Fahrenheit and 30%-50% humidity in areas where the cabinets are stored or installed. We mention these characteristics because DIRECT CABINET SUPPLY will NOT be responsible for these conditions. _____

(Homeowner/General Contractor), thank you for choosing DIRECT CABINET SUPPLIES painted finish. You have chosen white paint. Satisfaction with this specialized finish is very important to us at DIRECT CABINET SUPPLY. This is why we have prepared this product information and ask that you review it. We understand that your awareness of your unique finish selection is essential to your appreciation and ultimate satisfaction with your cabinetry. By signing below, you are confirming that you understand and consider acceptable all of the unique characteristics of your particular finish. You agree not to hold DIRECT CABINET SUPPLY responsible if you find these characteristics do not meet with your approval at a later date. I have seen a full size sample door or a complete display of this finish. I understand that as the cabinet ages, it may cause the paint to appear slightly different when compared to a new door. I am purchasing this finish without seeing a full size door sample and understand that photography or color chips will do not accurately represent an actual full size product.
